## OBITUARY

### Leo Pachucki

Our dear friend and RAMS member **Leo Pachucki** passed on October 14 at the age of 97. Leo was laid to rest at Arlington Park Cemetery with full military honors. Leo is survived by an incredible amount of family, including 18 great-grandchildren and even 4 great-great-grandchildren.

Despite being 97, Leo remained an active pilot. The photo (right) was taken earlier this year. Leo is also known for his excellent craftsmanship, scratch-built models, and his love of model airplanes that developed in his childhood days in the 1920s.

The Pachucki family has asked that memorial contributions can be made to the RAMS Club. Thank you for this kind and generous gesture.

## FIELD REPORT

## It Happens Every Year ...

Winter is approaching and many members will be packing up their equipment until spring. Don't forget to spend a little time to put away your gear properly – whether it be oiling up engines or care of batteries.

During several meetings, the club has discussed signage and how to inform visitors of the rules without having to pull out the field rules sheet. The entrance to the field now has a sign informing visitors that dogs are not allowed. Also in the works is a 4' x 8' sign that will contain the club's information.

Keep in touch over the winter. If you are working on a build, let us know how it is going.

## A MESSAGE FROM THE AMA

## FAA and DOT Requirements Feedback Wanted

By now, nearly everyone should be aware that the FAA and DOT are considering requiring registration of some small unmanned aircrafts and have created a task force to help develop that process. As part of these efforts, the DOT and FAA have asked for public input on the issue and have identified 10 questions that can be answered. The AMA asks that its members review the questions and offer comments. The AMA has also prepared some responses that may be used.

The website is: [www.regulations.gov/#!docketDetail;D=FAA-2015-4378](http://www.regulations.gov/#!docketDetail;D=FAA-2015-4378). It's important that you submit your comments by November 6, 2015. Comments

## BIRTH ANNOUNCEMENT

## Amelia McCullough

**Mike and Dana McCullough** welcomed their daughter Amelia Grace, born on October 14. Amelia was about two weeks early, but is doing well. Many have asked if she was named after Amelia Earhart. The official answer is no, but it's nice when things like that work out.

offered after this date will still be accepted, but might not carry as much weight as those submitted by the deadline.

## FROM THE EDITOR

If you have news or plane builds in progress now or over the fall and winter, please let us know. Share your information and/or photos by e-mailing the newsletter editor at [ramsrc.editor@gmail.com](mailto:ramsrc.editor@gmail.com). Thanks!
