# The RAMS Horn

**Next Meeting Discussion Topic**

## FPV Use At RAMS Field

Requested by our president, Jeff Borowski, we will be discussing adding field rules for use of First Person View systems. This applies to all craft, not just multi-rotor. All interested parties should attend.

**Field Report**

## Looking for Field Caretaker Help

We have made some progress finding a new caretaker for the field this year. **Bob Glowienka** has volunteered to coordinate the effort and mow part time. **Jeff Kraczek**, **Todd Schmitt**, and **Jeff Wisneski** have volunteered to keep the equipment maintenance up to date. That leaves us needing at least one more part-timer to assist with the mowing. Please contact Bob if you are interested and available.

I also happen to catch **Jeff Wisneski** at the field with his newly constructed Gee Bee, who had a perfect maiden flight with it.

## Show and Tell

## Gee Bee and Pitts Special

At the last meeting, **Jeff Wisneski** brought in his newly build profile Great Planes Gee Bee, which is electric. Jeff won this kit several years ago at a RAMS meeting. It is electric and is all one piece.

**Mike McCullough** brought in his Great Planes Pitts Special, which was acquired 3rd hand through RC Groups. It's a 43cc gasser. Mike will be working to improve his piloting skills before handing this one!
