Monthly Recap

June In Review

Important Dates for July:

Our next meeting will not be on the first Wednesday of July due to the July 4th holiday and will be on July 11 instead. This affects the month of July only.

July 14 with a rain date of July 15 is the SWARM Friend Fly. Like last year, during this day the SWARM club and friends will have sole use of the field for rotorcraft only. Don't have a rotorcraft? Visitors are welcome to watch or there is an Astro Wings Fun Fly on the 14th as well.

To the East of the field, some of the tall grass is being mowed down to help a lower approach. This will also help keep the grass from grabbing landing gear when landing to the West.

AROUND THE AREA

Upcoming Events

7/08/2018, 9AM - 2PM

Field Report

Update from our Dam Subcommittee

By Jeff Wisneski

Your Dam subcommittee has a dam update for you. Dam news: **The Dam has been removed!** A big thanks to **Jeff Kraczek** and **Bob Glowienka** for their efforts getting the dam out. Our local Conservation Warden, Steven Swiertz, put us in contact with the right people at Milwaukee County. Jeff K. and Bob G. met with the county and showed them our Dam problem. The county agreed we had a Dam problem and sent out a crew to remove the Dam. The county has plans to trap and remove the beaver from our site, but that may not happen until winter when trapping conditions are better. Until then, please be aware that the county may occasionally check in on the status of the Dam and remove it as required. Dam.
