Call to Action

FAA Proposed Rule Changes

The FAA has purposed new rules related to our hobby. You are strongly encouraged to respond to the FAA during the current open public comment period to express your concerns. **This comment period is open until 03-02-2020.** The AMA has put together multiple sample letters for you to copy and paste into the public comment form, you can use your own words or a combination of both. The AMA templates are here:

<http://amablog.modelaircraft.org/amagov/2020/01/20/submit-a-formal-comment/>

And this is the link to the federal registers comment page:

<https://www.federalregister.gov/documents/2019/12/31/2019-28100/remote-identification-of-unmanned-aircraft-systems#open-comment>

The EAA has also published an article expressing their concerns, which is a very good read. Although the EAA is not a model aircraft organization, model aviation is often a stepping stone into general aviation.

<https://www.eaa.org/eea/news-and-publications/eea-news-and-aviation-news/news/01-16-2020-Proposed-Remote-ID-Rule-Contains-Concerning-Requirements>

Renewal Reminder:

Don't forget to renew your AMA membership if you have not done so already. Also you may bring your application and payment to renew your RAMS membership to the next meeting.

Monthly Recap

January in Review

At the last meeting, officer elections took place. Your 2020 officer are:

President—**Jeff Wisneski**

Vice President—**Tim Welch**

Treasurer—**Tom Young**

Thank you to our officers and for all the time you give to the club!

We had some show and tell at the last meeting:

Bob Glowienka showed us a scrap wing covered in Oratex. It has a very nice, non-glossy finish especially compared to monokote.

Mike McCullough brought in an old school Kyosho Pitts Special that was recently found at the Oshkosh swap meet.

Lastly, although not pictured, **Jeff Borowski** fooled everyone by bringing in a large titanium rod. I say fooled, because it looked much heavier than it actually was. Jeff is planning to use this for his pulse jet's motor mounts.

At the Field

RAMS Winter Ski Flying

Here are some pictures to share of some ski flying from this last month.

▲ Not a crash, but a failed attempt to do doughnuts on the ice. The snow was not hard enough!

▲ Found, one half of someone's fuselage.
