# The RAMS Horn

**Club Event**

## RAMS Field Work Day

On October 22nd, the club held a work day at the field, mainly to help get rid of lots of branches that have fallen lately. You should have gotten **Bob Glowienka's** email via the groups.io summarizing the results. Just to reiterate, there was around 13 people who came out to help haul 10 trailer loads of branches like in the picture below away.

Wow. Amazing work, guys!

Thanks to **Jim Hatzenbeller** for the pictures.

## AROUND THE AREA

## Upcoming Events

11/5/2022, 9AM - 12PM  
Chicagoland RC Modelers  
Swap Meet  
St. John Lutheran School  
Mt. Prospect, IL

## Monthly Recap

## October in Review

You'll never see a meeting like this one again... We had a very generous donation of many kits and projects that were given to the club. Several of these were raffled off or given away at the picnic and the last meeting—and there were lots of smiling faces. Thanks to **Tim Sorensen** for bringing everything to the meeting. We will all be busy over the winter!

◀ **Mike Batson** brought out his giant Top Flight P-47 to the field. Mike has flown this plane before, but not at the RAMS field. The G62 engine pulled it forward, but an unfortunate bump caused the prop to break and take off was aborted. Next time she'll get in the air!

▶ If this plane looks familiar, you're right. This Goldwing RC Edge 540 belonged to our late friend **Jim Myszewski**. **Mike McCullough** purchased the plane from his estate and got it back in the air again. It's a great flying plane and glided in for a landing like a dream.

◀ This didn't make it in last month's newsletter, but last month over Labor Day, Milwaukee had a visit from Air Force One. No, this isn't RC—that would be fun though. It's awesome the FAA publishes Temporary Flight Restrictions so we know roughly when the plane is coming and going.
